

Hyper Inflation

What's coming – Hyper Inflation. One can not make a good omelette by re-arranging rotten eggs.

Causes:

- The Debt – 14.3 Trillion Dollars. Spending money we don't have created the debt.
- Not Supporting Israel – Bible Prophecy. In the Last Days all Nations will turn against Israel.
- Federal Reserve - **Quantitative Easing**.1 and 2, and too come #3. Printing money that is not backed up by Gold or Silver.

Results:

- People/Church turn to God. Only God (Jesus) turned water into wine. God wants people/Church to serve Him and not the Devil or man.
- World – The New World Order will come into being. A strong U. S. economy is preventing this from happening.

Who put us in this condition? Both political parties, anyone who spends money we don't have created the debt problem. Two wrongs do not make a right.

What is quantitative easing, or QE?

It's the electronic equivalent of starting up the Fed's printing presses to create money for buying financial assets in the market – in this case long-term U.S. Treasury bonds. Buying bonds pushes down their yields and the interest rates across the debt markets that are closely tied to U.S. Treasury rates.

Definition of Hyper Inflation:

Extremely rapid or out of control inflation. There is no precise numerical definition to hyperinflation. Hyperinflation is a situation where the price increases are so out of control that the concept of inflation is meaningless.

Investopedia explains Hyperinflation

When associated with depressions, hyperinflation often occurs when there is a large increase in the money supply not supported by gross domestic product (GDP) growth, or gold, resulting in an imbalance in the supply and demand for the money. Left unchecked this causes prices to increase, as the currency loses its value.

When associated with wars, hyperinflation often occurs when there is a loss of confidence in a currency's ability to maintain its value in the aftermath. Because of this, sellers demand a risk premium to accept the currency, and they do this by raising their prices.

One of the most famous examples of hyperinflation occurred in Germany between January 1922 and November 1923. By some estimates, the average price level increased by a factor of 20 billion, doubling every 28 hours.

New World Order

The New World Order is first ruled by people (politicians) most likely from Rome. It happens before the Antichrist rules and most likely after the Latter Rain. The New World Order has been happening for a long time. A moral and strong US is standing in the way. That is why the decline of the US. Also the War between Israel and Iran helps push for a New World Order.

Conclusion

Just for grins – vote Obama and all the people that believe we can spend money we don't have out of office.

I hear the Media treat Obama as a normal President with a different way for America. They don't see him as a person that wants to destroy America. That tells us how bad the problem is.

God is using Obama to wake up the Church. The question is – has harm been done to America that will not be fixed by God? Or is it God's will to fix America? God is the only answer. We need to turn to God and hope for the best. Our forefathers turned to God and it worked for them.

God has done His part by giving His Son, Jesus. His grace has provided everything through the sacrifice of Jesus. This is nearly too good to be true because there is absolutely nothing we can do to earn it and nothing we can do to lose it. Our part is simple: We respond to His grace by faith and appropriate what has already been accomplished.

The best solution is to lean on the Word, the Name, and the Blood of Jesus Christ.

Our focus is doing the things that will help save souls (guided by the Holy Spirit) and vote like Christians/Americans. In the long run "souls" are all that counts.
