

Israel and the Middle East

War can break out any day. War will be Israel and the Middle East countries. The war will be forced because Iran is about to go nuclear.

Satin hates what God loves. Satan is behind all that is bad! I have limited the countries to the Middle East but other countries will be involved. Countries like the United States (present administration) do not want Iran to go nuclear but loves the Muslims. The US is questionable but I believe it will back Israel in this war.

Other countries will back Iran (Russia and China) due to money and treaties. Most of other countries will go to the United Nations to be against Israel. Libya (North Africa) and North Korea will be against Israel but are not a Middle East countries.

The war will be short. God will show Himself mighty! God will win. In all reasoning the Middle East countries should win, but Israel will win due to God's intervention.

The definition of an Israel holiday is – we fought, we won, lets eat.

Middle East countries that back Israel:

- Israel & God
- Saudi Arabia will let Israel use their air space because they do not want Iran to go nuclear more then they dislike the Israel.

Middle East countries that are against Israel:

- Iran (Persia) is about to go nuclear.
- Syria will lose Damascus.
- Egypt
- Jordan
- Sudan and Ethiopia (Cush)
- Yemen and Oman (Sheba)
- Turkey (Hittites)
- Lebanon (Canaan)
- Iraq will most likely sit this war out due the US war.

I may have left out some countries but these are the heavy hitters.
