

New World Order by Paul McGuire

I watched a reporter (Paul McGuire) from FOX and CNN News talk about End Times (Apocalypse and the End Times) the other night. He was a pre-trib person and was asked about mid-trib and post-trib. He stated the people in North America will think they are going through mid or post trib based upon who is elected President and the 32 czars appointed. He stated as a case in point a statement by Janet Napolitano (Secretary of Homeland Security) that "rightwing extremism" may include groups opposed to abortion and immigration". As she defined it, you are a **terrorist**.

Paul stated that the goal is to remove God from everything. Depending on our vote will determine what we think about tribulation.

Paul stated that the purpose was to bring down the US dollar. There is no crisis that will cause the printing of the dollar like today. This will cause the Federal Reserve (non American & Atheistic group) to back a new currency and replace the US dollar.

The problem that they have is that they don't believe in God. They have failed. They want a few elite and rest being workers to serve them. The few are mainly bankers from the UK and US. The New World Order will be public knowledge and supported by the Federal Reserve.

This is not new. Nimrod did this in Egypt. Again the goal is to do away with God. We know who is behind this. They loose! We can expect is enemy to not give up without a fight. They will loose. Revelation tells us who wins. That is why they fear the Christians more than terrorist.
