Experience is knowledge/skill gained either through involvement or observation over time. Wisdom is the comprehension of what is true or right coupled with optimum judgment as to action. Wisdom can be gained through the experience of making mistakes - the hard way - or by listening to or observing others going through similar problems - the easy way. However, the best way is by reading and applying God's way of acting upon a situation.

The documents linked to on this page (www.mikedorough.net) represent what I have learned and recorded so far. Being a Christian does not mean there are no consequences to our actions, but it does mean we should be obedient to God's Word and the Holy Spirit. Being guided by the Holy Spirit plus reading and doing the actions in the Holy Bible may prevent problems in our life.

The documents may or may not contain content from other websites or authors. After my stroke on April 29, 2008, I have created/copied several documents that deal with God's Word, the Human Heart, and Bible Prophecy. I hope these documents will be a blessing for you. The purpose of these documents is to prepare us for the second coming of the Lord Jesus Christ.
