

Golf Story by Mike Dorough

Michael (when he was about 10) asked me to teach him how to play golf. He said when he gets old (like me) he would have something to do.

The definition of "Old" is about 20 years older than you are.

I golf in the mid 80's. If it gets hotter than that I don't play.

The best club in my bag is the ball retriever. I re-gripped the ball retriever 3 times.

I upgraded my equipment over the years. I currently play with Ping clubs.

I golf mostly by myself but Marilyn has shown great improvement over the last few outings. A few golf events ago she got her first bride.
