

Why I Think Like I Do - Story

I don't watch Glenn Beck. However I do know who he is. Glenn is waking-up America.

I spend most of my time between two camps, God and Current Events.

God

I hear from God primarily by reading the Bible and listening to the Holy Spirit.

I have many personal experiences and listen to my wife Marilyn. Marilyn is an intercessor and spends a lot of time reading the Word.

I am learning to listen to my heart rather than my mind.

I have written many articles on my website, www.mikedorough.net.

The people that listen to the most are Andrew Wommack, Kenneth Copeland, Pat Roberson, and Charles Stanley. Other people that have my ear are Joyce Meyer, Jesse Duplantis, Joel Osteen, and Billy Graham. I attend a local Church (Oasis Family Church) and listen to some of the Church members including Home Meetings and pastors John and Fran. One person that is special to me is my twin brother Mark.

Over the years I have been blessed with powerful pastors. The pastors include James Robinson, Don George, Bob Nickels, Marilyn Hickey, and Dick Iverson (Texas, Colorado, and Oregon). Please note that I excluded the state that I currently reside in (Arizona).

Not many years ago man believed that world was flat. Technology gets better but people remain the same. Are people "smart" or "stupid"? People are the problem. God remains the same.

I believe we are in the "Last Days". Do you believe man's report or God's report? Does one believe what one see's or read in the Bible? Is one "double-minded" or not?

The world is being prepared for what is coming. God always wins! He does not do things as fast as I. That is why I trust Him and not my understanding.

These are like the days of Noah. No one believed Noah was correct but he was. I did not say it was easy only correct.

Bible prophecies trumps what one see's in the natural. Remember, God works in the Supernatural. That is why faith is so important.

The love of God is active goodness, ceaseless mercy and unending grace. It wills the highest and chooses the best. It encourages, supports, disciplines, edifies, and corrects because it is holy love.

Current Events

I get my news from Fox, PBS, and CNN.

I am conservative, supportive rather than controlling, and believe one should not spend more than one have.

Other

I like Food, History, Golf, Hunting, and Comedy.

Conclusion

Who am I? I guess I am a collection of all above. However, the closer that I get to God the more that I realize that I don't know.

I know that I am loved.

We are like sheep; we need His love and protection.

Mike
